EMPLOYMENT SECTOR SPOTLIGHT: HEALTHCARE

The healthcare industry offers a variety of career pathways and not all of those require medical knowledge or even a medical degree. Both large medical centers and local providers are actively adding staff for positions including Nursing, Medical Assistant, Phlebotomist, Radiography, Patient Services, Custodial, Food Services, Billing, Information Technology, and more. So, if you're thinking of a career in healthcare, E3 Works can help you find a position or healthcare training program to prepare for a new career. Let us help you find a career that works for you!

PROGRAM SERVICE OF THE MONTH: SUPPORTIVE SERVICES

Realizing your career goal is not always easy. Getting past barriers can be difficult without adequate resources. E3 Works provides supportive services to help overcome those barriers. We can help with transportation, clothing for an interview or required for employment, housing costs, books and fees for training, and more. By covering these costs, we believe our participants will be better able to find and keep the career they want.
